

# AMERICAN CONFIDENCE IN ELECTIONS ACT

*Educate. Engage. Reform.*

## STATE TOOLS:

- Provides states with tools to boost election integrity and removes outdated federal policies that get in their way.
- Prohibits non-citizen voting, allows states to use REAL ID as proof of citizenship, and directs bipartisan EAC standards board to establish a federal forum that will help states develop best practices.
- Paired with model state legislation and voter initiatives for state legislatures to consider.

## D.C. AS EXAMPLE:

- Will exercise Congress' responsibility over D.C. to implement election integrity measures outlined in the model state legislation.
- Requires photo ID to vote in person or request absentee ballot, requires annual list maintenance, prohibits same-day registration & ballot harvesting, prohibits automatically mailed ballots, requires post-election audits.

## PROTECTING FREE SPEECH:

- Protects all voices and Americans' First Amendment right to speak political views and support candidates, causes and organizations without fear of retribution.
- Strengthens state party committees & non-profit organizations.
- Curbs the use of "Zuckerbucks" and prevents the creation of any "Misinformation Czar."
- Ends Biden's weaponization of federal government for partisan purposes.

# ELECTION INTEGRITY. VOTER CONFIDENCE.

Committee on House Administration - Ranking Member Bryan Steil (R-Wi)
